

## BSS case for Flow 8

Discover the BSS Flow 8 Case - your "All in One" audio setup in a robust hard case that leaves nothing to be desired. This sophisticated case not only offers secure protection for your Behringer Flow 8 digital audio mixer, but also perfect integration of your smartphone or tablet up to a size of 260 mm x 178.5 mm x 8.5 mm. With the clever, ergonomic holder, your device is optimally attached and ready for use immediately. No falling over, no tangled cables - simply professional working.

The BSS Flow 8 Case impresses with its high-quality workmanship. All mounts and covers of the Flow 8 are made of durable, powder-coated stainless steel. The plastic parts are made of impact-resistant material to withstand tough everyday use for a long time. The integrated power adapter, the included USB-C and Lightning charging cables as well as all necessary connection cables and small parts make the case the perfect companion for on the go. Your Flow 8 is always protected and ready for use.

Get the most out of your setup with the right app from the manufacturer. It gives you access to hidden functions that unleash the full potential of your Flow 8. And best of all, the BSS Flow 8 case is not only high-quality, but also attractively priced.

For even more functionality, you can expand your case with additional options and adapt it to your needs. A USB-A charging socket with up to 2 A provides extra power for your external devices. A  $\frac{3}{8}$ " thread enables attachment to rigs or tripods, and the option of battery power makes you independent of the mains supply. With a voltage of 12-14.4 V, your Flow 8 Mix runs at all times - no matter where you are.

Experience the BSS Flow 8 Case now - the perfect solution for your mobile audio setup!
